

HEALTH, SAFETY, ENVIRONMENT & QUALITY POLICY STATEMENT

The following is a statement of the integrated health, safety, environmental and quality policy for g2 Energy.

g2 Energy is a National Independent Connections Provider, who specialise in the design, construction, operation and maintenance of High Voltage electrical distribution and generations networks up to and including 132kV, for private clients, developers and the national Distribution Network Operators (DNOs). Our objectives are to provide an excellent service to meet the needs and expectations of our clients, to comply with legal and other requirements, to provide safe and healthy working conditions and protect the environment. To achieve these, g2 Energy has developed an integrated management system in accordance with ISO 9001, OHSAS 18001/ISO 45001 and ISO 14001.

In this regard, g2 Energy commits to:

Health & Safety

- Provide plant and equipment in a safe and secure manner and ensure it can be operated and maintained safely
- Identify and eliminate foreseeable hazards, as far as reasonably practicable and reduce health & safety risks
- Provide all necessary information required to undertake work safely, to employees or other relevant persons who require it
- Use trained and competent staff, and select contractors, sub-contractors and suppliers who meet or exceed g2 Energy standards
- Consult with employees and invite participation on matters of health, safety and the environment

Environment

- Protect the environment, including prevention of pollution, conserving resources and promoting recycling
- Take appropriate action to reduce, reuse and recycle materials and minimise waste, and use all forms of resources efficiently
- Assess environmental aspects and reduce the associated impacts through objectives and targets
- Continually strive to enhance environmental performance

Quality

- Provide efficient and effective project management to deliver the services to meet customer needs
- Provide adequate financial and human resources to deliver on customer needs and on these objectives

General

- Comply to legal and other requirements, including legislative, regulatory, industry standards and best practice, as well as company procedures
- Use monitoring, measuring, analysis and performance evaluation to continually improve the management system
- Work in partnership with clients, contractors, sub-contractors and suppliers to ensure effective HSEQ management
- Raise awareness, educate and provide training for employees applicable to their functions and roles, including emergency preparedness and response
- Establish achievable and measurable objectives and targets to monitor and evaluate performance
- Encourage all employees to be involved in the company's efforts to improve quality, health, safety and the environment

The management of g2 Energy shall ensure that this policy statement is communicated and understood within the organisation, and available to other interest parties. This policy statement shall be reviewed annually for continued suitability.

Kelvin Ruck
